

SPORT

*SPORT shown with optional equipment

Glaval's Sport gives you maximum maneuverability and versatility.

Glaval Bus' SPORT is a quiet, comfortable, durable steel frame ride with a narrow-body width and low-height for a variety of shuttle and on-demand services. With a full range of floor plans for up to 14 passengers plus driver, the SPORT is versatile, economical and flexible enough to suit a wide variety of applications. No CDL license is required.

Drivers love the narrow profile and dual rear wheels, making it easier to drive and park. When you need to maneuver around parked cars, tight traffic, physical obstructions or low overhangs, the SPORT's low and nimble profile is the perfect choice. Small groups can ride in comfort and style to doctor's appointments, social outings or shuttled to airports and hotels. The SPORT can be ordered with a rear lift and paratransit options when handicap accessibility is needed.

Specifications

Chassis	General Motors G-Cutaway
On Wheelbase	139"

*Additional Lengths May Be Available Upon Request

"Steel-Safe" construction wraps passengers in strength and comfort. The subfloor of welded square tube steel is covered with 5/8" pressure-treated MarineTech plywood.

Altoona Tested

5 Years / 150,000 Miles

A welded steel cage frame is filled with solid-block dense foam insulation and vacuum-laminated to a galvanneal steel exterior skin and an interior wall of vinyl-covered lauan for the side and rear walls that give you the durability and strength you need. Glaval buses have a 5 year/100,000 mile limited warranty.
